Quant au l'unetier normant KNCO, il orchestre une rencontre entre deur des marques de son portefeuille : François Plintin et la licince John Lennon. La marque partielene revisite ainsi les emblématiques binocles rondes et finement métalliques (3) du Beatles mort en 1980, La malson Pirston lui rend même bornmage en habillant temporairement sa bourique historique de la rue Biossy d'Angles, à Paris, Fullinic Jack, le drapeau du Royama-Uni...

L'essentiel de l'Optique

Les ecloris pastel ont quelque chose de doccereux et de tendre, ils font l'effet d'un transpillisant qui quies dans un environnement neix rués noir ou criant rop criant. Ces couleurs consciontes peuvent paraltre pour certains sans personnellité tinotoriale, dégageunt un effet « guima rue », elles sont pourtant elégantes une la subtilité qu'il faut, sans faire du taquage.

ODÉON-

Le thème Odéon puise son inspiration du théâtre du même nom édifié au cœur du 6^{ème} arrondissement de Paris. Conçu comme un temple du théâtre français de style néoclassique, mais à l'intérieur, son inspiration architecturale est complètement différente : il s'agit d'un théâtre à l'italienne.

The Odéon theme takes its inspiration from the theatre of the same name in the heart of Paris's 6th arrondissement. Conceived as a neoclassical temple of French theatre, the architectural inspiration inside is completely different: it is an Italian-style theatre.

La scène à l'italienne est reconnaissable par sa forme, son esthétique souvent luxueuse, mais aussi par l'organisation des volumes intérieurs. Elle a une construction surélevée par rapport à la salle avec un plancher légèrement incliné vers le public. Et son décor est conçu comme un tableau mis en relief par des plans successifs selon les lois de la perspective.

The Italian-style stage is recognisable by its shape, its often luxurious aesthetic, but also by the organisation of the interior volumes. It is built higher than the auditorium, with a floor that slopes slightly towards the audience. And its set is designed like a painting set off by successive planes according to the laws of perspective.

Tout comme la scène du théâtre, le modèle Odéon joue avec le relief par l'utilisation de biseaux sur les différentes parties de la monture : face, branches et manchons. Le thème Odéon présente un travail de finition centré sur les jeux de volumes et les effets d'optique. L'esthétisme sophistiqué de François Pinton est préservé avec la présence du monogramme calligraphié sur le pont des montures ainsi que sur la soie de ces dernières. Appréciez le détail ultime, les charnières rivetées procurent une réelle sensation de qualité, empreint de tradition et de savoir-faire français.

Like the stage of the theatre, the Odeon model plays with relief through the use of bevels on the different parts of the frame: front, temples and sleeves. The Odeon theme features finishing work centred on the play of volumes and optical effects. François Pinton's sophisticated aesthetic is preserved with the presence of the calligraphic monogram on the bridge of the frames as well as on their silk. Appreciate the ultimate detail, the riveted hinges provide a real sense of quality, imbued with tradition and French know-how.

PUR 01, 02, 03, 04 =

Voici notre nouvelle ligne de montures fines pour hommes. Le concept PUR s'illustre de 4 formes qui incarnent l'élégance à la française et allient savoirfaire artisanal et design contemporain. Des montures en métal où la finesse et la simplicité offrent une légèreté exceptionnelle.

Introducing our new line of slim frames for men. The PUR concept is illustrated by 4 shapes that embody French elegance and combine traditional craftsmanship with contemporary design. Metal frames where simplicity and finesse offer exceptional lightness.

Discrèts, chaque élément est pensé pour offrir un look classique et sophistiqué tout en surfant sur une tendance moderne. Un design épuré et élégant en fait un accessoire polyvalent. Notez par exemple la forme des branches, fuselées et droites, elles se terminent par un manchon en acétate pensé tout en finesse pour un maximum de confort.

Discreet, each element is designed to offer a classic, sophisticated look while embracing a modern trend. Their sleek, elegant design makes them a versatile accessory. Note, for example, the shape of the temples: tapered and straight, they end in a slender acetate cuff for maximum comfort.

La gamme de couleur surf aussi sur une tendance classique, cependant, une fine couche de laque est appliquée sur les cercles afin de donner une profondeur aux cercles.

PUR est donc un nouveau concept volontairement fin, dans l'esprit des collection Héritage, pour les hommes ne souhaitant faire de compromis entre tendance, simplicité et confort.

The colour range also follows a classic trend, but a thin layer of lacquer is applied to the hoops to give them depth.

PUR is a deliberately slim concept, in the spirit of the Heritage collection, for men who don't want to compromise between fashion, simplicity and comfort.

SUPERMAN + BATMAN — WONDER WOMAN

DC COMICS spreads its wings in the François Pinton collection with the SUPERMAN, BATMAN and WONDER WOMAN models. Frames designed for everyday superheroes. Completely inspired by the heroes of the 80s films, the three models, optics and sunglasses, will be a hit with collectors who are fans of the DC Comics universe. Developed in collaboration with WARNER, they fully respect the integrity and aesthetics of the licence.

The Batman model has everything it takes to become THE iconic sunglasses of this summer, with its spectacular shape that seems to tear through the night. The first eye-catching detail is the distinctive shape of the bridge, which represents the silhouette of a bat. This model is all taut lines and will give its wearer an aura of mystery like the hero whose name it bears.

Each of these frames carries its own logo at the end of the temples. But above all, they will be limited and numbered to 100 pieces ONLY. All the more reason for collectors looking for unique accessories to reinforce their style while choosing sides!

The Clark Kent model could have been worn by actor Christopher Reeve, who played Superman in various films between 1978 and 1987. This new model, based on a traditional shape, offers a bolder choice of colours, with green and blue but still tortoiseshell and black.

The Wonder Woman model has a shape inspired by the 70's, with its oversized square shape, perfectly proportioned and meticulously detailed. The frame is a tribute to the iconic actress Lynda Carter, who played the superheroine in the 1984 film of the same name. Note the riveted temples and the interplay of thicknesses on the temples and front.
